COMPANY PROFILE

CREATING LINKS. PROVIDING SOLUTIONS.

ABOUT US

CRIZLINK, Incorporated provides supply chain solutions for industrial and commercial customers. We provide the newest technologies in the fields of electrical, automation and control protection. Our company works closely with our partners from both local and abroad to provide the latest products and technologies you know and trust. We choose our product range from the world's best-known manufacturers to bring you high quality products you can rely on with competitive cost. Innovation is part of our identity. We maintain a competent team to keep abreast of the latest technologies, give full technical support and continuously stay in contact with customers. Our company does not only deliver high quality and competent products, Crizlink is also capable of providing alternative solutions. We constantly improve and increase our efforts to maintain reliable to our clients and loyal to our partners in order to expand our market reach and create sustainable growth.

CRIZLINK, Inc. serves commercial and industrial customers. We provide supply chain solutions that suit our customers' needs and interests, supplying the latest in electrical, automation, and control protection technologies. Thanks to our partnerships with world-renowned brands, we are able to give both good-quality products and alternative solutions.

COMMITMENT

Our company commits itself to

- being able to give our best to our customers, providing their needed products and services,
- being able to collaborate with our partners in providing what customers need, and to fulfill commonly shared goals and interests,
- making sure the team working at Crizlink is always ready to be of service and be more than just competent at doing the work and tasks laid upon our hands.

OUR CORE VALUES

- **Reliability.** Crizlink makes sure that the company is one that can be trusted by its customers for its ability to deliver the products and services they demand, as well as maintain regular contact with them whenever needed.
- **Honesty.** In addition to maintaining reliability, Crizlink also builds the customers' trust by ensuring that Crizlink does not engage in any deceitful practices.
- **Loyalty.** Crizlink remains loyal to its partners in order to build their trust that we are able to make use of and deliver their products to the market through us.
- **Efficiency.** Crizlink seeks to provide the best solutions and alternatives that suit each customer, making sure that everything operates as effectively as possible.
- **Innovation.** Crizlink keeps an eye out for the latest products and the newest technologies available to the market, assuring that these items, as well as full technical support, can be brought to both regular and prospective customers.

THE MISSION

Crizlink Inc. aims to provide the best products and services to our customers from our partnerships with well-known and high quality brands, and offer the best solutions and technical support to our customers.

THE VISION

Crizlink Inc. seeks to capture a wide market reach and attain sustainable growth for the company's, the partners', and the customers' benefit.

OUR PRODUCTS AND CAPABILITIES

Low Voltage Products

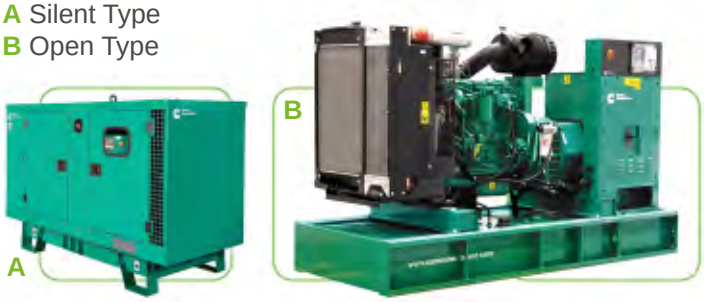

A Circuit Breakers (ACB/MCCB/MCB)
B Variable Frequency Drives
C Contactors and Accessories
D Relays

Power Generating Sets

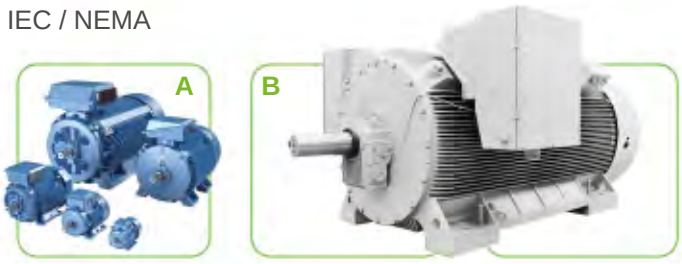

Diesel Engine Driven Gensets

A Silent Type
B Open Type

Electric Motors

A LOW / MEDIUM VOLTAGE
B IEC / NEMA

Batteries and Chargers

A Sealed Lead Acid Battery
B Vented Lead Acid Battery
C Rectifier / Battery Charger

Electrical Assemblies

A Switchgears (Low/Medium Voltage)
B Panel boards
C Cable Trays and Wireways
D Capacitor Banks
E Transfer Switches (Automatic or Manual)
F Motor Controllers

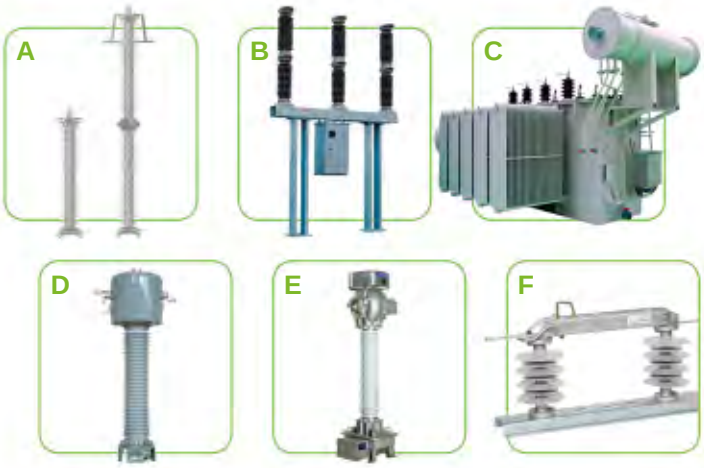

Power Distribution

A Lightning Arresters
B Fused Links
C Auto Circuit Recloser
D Fused Cutouts
E Insulators (Pin/Post/Suspension Type)
F Instrument Transformer (PT/CT)
G Distribution Transformers (Pole/Pad Mount Type)

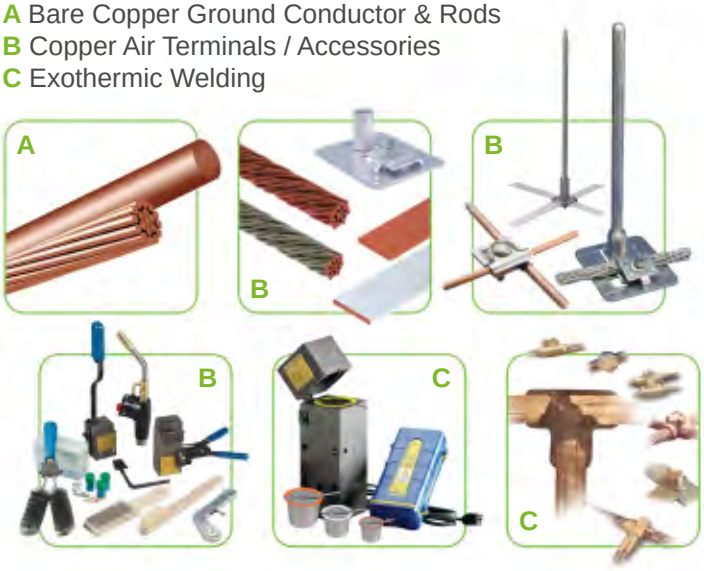

Medium and High Voltage Equipment

A Surge Arresters
B Power Circuit Breakers (SF6 or Vacuum Type)
C Power Transformer
D Current Transformer (Metering and Protection)
E Voltage Transformer (Metering and Protection)
F Disconnect Switches (Motorized or Manual Operation)

Grounding / Lightning Protection

A Bare Copper Ground Conductor & Rods
B Copper Air Terminals / Accessories
C Exothermic Welding

Wires and Cables

A Control Cables
B Low Voltage Power Cables (THHN/THWN/THW/TW)
C XLPE Cables (Single/Multi Core)
D Aluminum Cables (ACSR/ACCC/AAC)
E OPGW and Accessories
F Insulated Cables (Tree Wire)

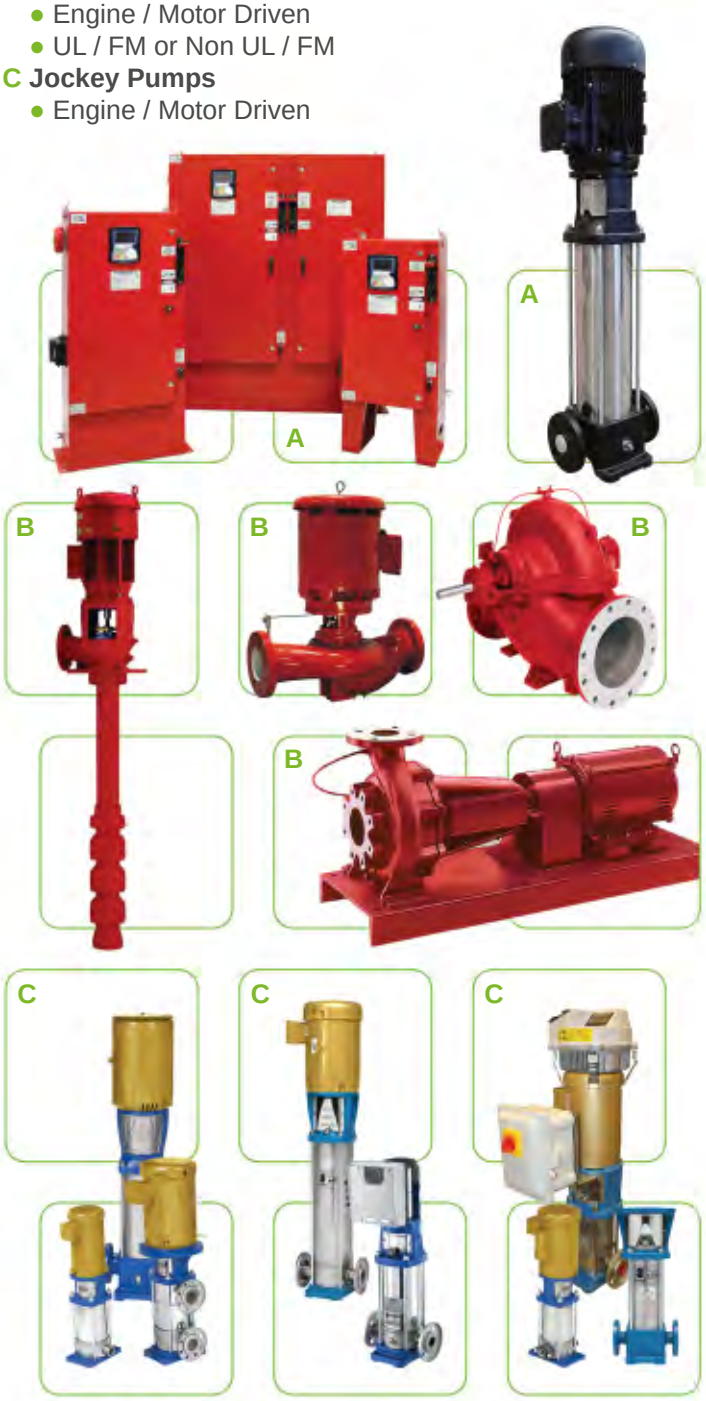

Fire Protection

A Controllers
- Fire Pump
- Jockey Pump

B Fire Pumps
- Engine / Motor Driven
- UL / FM or Non UL / FM

C Jockey Pumps
- Engine / Motor Driven
